This listing of the claims will replace all prior versions, and listings of claims in the application.

1. (Currently Amended) A method of selling light bulbs comprising: manufacturing said light bulbs;

packaging <u>said light bulbs</u> and <u>placing information on said packaging to a user</u>

regarding which light bulbs perform well with which color pallet of a room; and

merchandising <u>said</u> light bulbs <u>by placing said information on displays visible to a user based on room color.</u>

- 2. (Original) The method of claim 1 wherein said light bulbs are manufactured by:
 adjusting Kelvin rating on light bulbs.
- 3. (Original) The method of claim 1 wherein said light bulbs affect spectrum of visible light that is emitted.
- 4. (Original) The method of claim 3 wherein said light bulbs enhance colors that are in said spectrum that has been created and down plays colors that are not.
 - 5. (Currently Amended) A method of selling light bulbs comprising: adjusting a Kelvin rating on said light bulbs; determining <u>a said</u> spectrum of light affected by said light bulb; packaging said light bulbs;

marking on said packaging how colors in a room are effected by said light bulb by providing information to a user about how said spectrum of light is affected by said light bulb.
